

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claim 1 (currently amended): A pet food container including pet food comprising:

- a tray;
- a dry food compartment defined by the tray and including a unit of dry pet food;
- a wet food compartment defined by the tray and adapted to receive unpackaged wet pet food; and
- a quantity of wet pet food in the wet pet food compartment, wherein the wet pet food is stored in an unpackaged condition.

Claim 2 (original): The pet food container of Claim 1, wherein the dry pet food compartment is spatially adapted to maintain a number of dry pet food units in a packaged order.

Claim 3 (original): The pet food container of Claim 1, wherein the dry food compartment includes a plurality of dry pet food units.

Claim 4 (original): The pet food container of Claim 1, wherein the wet pet food is a flavored cream paste.

Claim 5 (original): The pet food container of Claim 1, wherein the wet pet food is shelf stable.

Claim 6 (original): The pet food container of Claim 1, wherein the dry pet food includes functional foods.

Claim 7 (original): The pet food container of Claim 1, which includes a second wet food compartment formed in the tray having a quantity of a second wet pet food.

Claim 8 (original): The pet food container of Claim 1, which includes a resealable lid.

Claim 9 (original): The pet food container of Claim 1, which includes a hinge in the surface positioned so that one of the compartments may be folded over onto the other compartment.

Claim 10 (currently amended): A pet food container including pet food comprising:

a tray defining a surface;

a plurality of pet food compartments that each extend from the tray surface, the pet food compartments individually adapted to hold a particular quantity and type of pet food, wherein the pet food compartments each contain a different type of pet food, at least one pet food compartment is moisture impermeable and ~~contacts~~ includes a wet pet food product that is stored in an unpackaged condition; and

a resealable lid removably attached to the container, the lid adapted to seal the compartments from ambient air.

Claim 11 (original): The pet food container of Claim 10, wherein the tray is made of a material chosen from the group consisting of: cardboard and plastic.

Claim 12 (original): The pet food container of Claim 10, wherein the tray includes a functional food.

Claim 13 (original): The pet food container of Claim 10, wherein the resealable lid is adapted to individually seal at least one compartment.

Claim 14 (original): The pet food container of Claim 10, which includes a crease in the surface positioned so that a compartment may be folded over onto another compartment.

Claim 15 (currently amended): A pet food container including pet food comprising:

a body, including a tray that defines a surface and includes at least two compartments that each extend from the surface;

a unit of dry pet food stored in one of the compartments, the dry pet food including an end having a surface adapted to hold a quantity of wet pet food; and

a unit of wet pet food stored in a second compartment, wherein the wet pet food is stored in an unpackaged condition.

Claim 16 (original): The pet food container of Claim 15, wherein the dry pet food end has a rounded shape.

Claim 17 (original): The pet food container of Claim 15, wherein the dry pet food end has a rectangular shape.

Claim 18 (original): The pet food container of Claim 15, wherein the dry pet food has a spoon shape.

Claim 19 (original): The pet food container of Claim 15, which includes a plurality of different wet pet food quantities stored in the tray, wherein the dry pet food surface is adapted to individually hold a quantity of each wet pet food.

Claim 20 (withdrawn): A dry pet food product that includes a body having a first end and a second end, the first end including an indentation for receiving a wet pet food product.

Claim 21. (withdrawn): The dry pet food of Claim 20, wherein the body has a substantially rectangular shape.

Claim 22 (withdrawn): The pet food product of Claim 20, wherein the dry pet food product has a spoon like shape.

Claim 23 (withdrawn): A method for providing a pet food product comprising the steps of:

providing a container housing a plurality of pet foods, including dry pet food units and a first wet pet food, wherein the dry pet food units have a surface adapted to hold a quantity of the first wet pet food:

removing a dry pet food unit;

using the dry pet food unit to remove a quantity of the first wet pet food; and

providing the dry pet food unit including the wet pet food to a pet.

Claim 24 (withdrawn): The method of Claim 23, wherein the container houses a second wet pet food, using the dry pet food unit to remove a quantity of the second wet pet food.

Claim 25 (currently amended): A pet food container for holding different pet foods comprising:

a tray;

a compartment defined by the tray;

a removable divider that separates the compartment into sub-compartments so that one sub-compartment holds a quantity of a first pet food and the other sub-compartment holds a quantity of a second pet food, wherein one of the pet foods is a wet pet food stored in an unpackaged condition and one of the pet foods is a dry pet food, and the removable divider being so constructed and arranged as to cause at least a portion of the wet and dry pet foods to contact each other when the divider is removed.

Claim 26 (original): The container of Claim 25, wherein the tray defines a plurality of multi-food compartments that each receive a divider and separate first and second pet foods.

Claim 27 (original): The container of Claim 26, which includes a hinge in the surface positioned so that a multi-food compartment may be folded onto another multi-food compartment.

Claim 28 (original): The container of Claim 25, which includes a plurality of dividers that form at least three different sub-compartments.

Claim 29 (currently amended): A pet food container for holding different pet foods comprising:

a tray;

a first compartment defined by the tray and including a dry pet food;

a second compartment defined by the tray and including a wet pet food; wherein the wet pet food is stored in an unpackaged condition; and

a hinge located between the compartments to allow one compartment to be moved relative to the other compartment.

Claim 30 (original): The pet food container of Claim 29, wherein the hinge is so constructed and arranged to allow one of the compartments to be folded over onto the other compartment.

Claim 31 (withdrawn): A pet food container for holding different pet foods comprising:

a flexible pouch;

a first compartment defined by the pouch for holding a first pet food; and

a second compartment defined by the pouch for holding a second pet food.

Claim 32 (withdrawn): The container of Claim 31, wherein the pouch includes two outer faces and a divider sealed between the faces.

Claim 33 (withdrawn): The container of Claim 31, wherein the first and second compartments are attached to each other along a common edge.

Claim 34 (withdrawn): The container of Claim 33, wherein the compartments each include outer faces and a divider sealed in between the faces.
